RP requested an officer to discuss a medical issue. While fielding the call, it was determined that there was a concern regarding power outages and availability of medical oxygen at the residence and the party was looking for automatic well being checks every time there is a power outage in the area. He was advised that we cannot set something like that up, but will respond when this occurs if we get a call during an outage. Party advised that there was no cell coverage in the area, and that the phone doesn't work without power. Dispatch explained that a basic corded phone would still function in an outage, but parties still requested to speak to an officer about the issue.
