CP requesting to better understand department policy regarding incidents and reports generated by police officers. Specifically, CP was referring to call 19-8046. CP stated she was not pleased with the narratives accuracy and length and was inquiring if the public had the ability to alter said report. CP was advised that narratives of any kind are only to be modified by the officer writing them and/or a supervisor (not the public). CP was explained that this particular matter was determined to have been civil by officers on scene and the narrative was written after one or more officers have spoken with all involved parties and determined exactly what had happened.
